PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	Stream - Announcements
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_STR_001**
TEST SCENARIO:	Verify that students can view teacher announcements in the Stream.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
View the newest announcement.	Student is enrolled; teacher posted two announcements.	1. Open the class. 2. Select Stream. 3. Locate the newest announcement.	Two dated announcements with distinct text.	Both announcements appear, with the newest item shown first unless the teacher moved a post.		**Not Tested**
Open announcement details.	An announcement contains text and an attachment.	1. Open Stream. 2. Select the announcement. 3. Review the text and attachment.	Announcement with a PDF or image.	The full announcement text, teacher name, posting time, and attachment are visible.		**Not Tested**
Open an announcement attachment.	The student has access to the attached resource.	1. Open the announcement. 2. Select the attachment. 3. Return to Classroom.	Accessible Drive file or web link.	The resource opens successfully and the student can return to the same Stream position.		**Not Tested**
Retain announcements after refresh.	The class Stream is loaded.	1. Note the visible announcements. 2. Refresh the browser. 3. Compare the Stream.	Existing Stream posts.	The same authorized announcements remain visible without duplication or data loss.		**Not Tested**
Hide a scheduled announcement before release.	Teacher scheduled an announcement for a later time.	1. Open Stream before release. 2. Search the visible posts. 3. Recheck after release time.	Scheduled announcement and release time.	The post is hidden before release and appears after the scheduled time.		**Not Tested**

PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	Stream - Comments
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_STR_002**
TEST SCENARIO:	Verify student class comments, replies, deletion, and permission handling.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
Post a class comment.	Teacher allows students to comment on the selected post.	1. Select Add class comment. 2. Enter the test comment. 3. Select Post.	Comment: Thank you for the reminder.	The comment appears once with the student's name and posting time.		**Not Tested**
Reply to an existing comment.	A classmate comment is visible and replies are allowed.	1. Select Reply on the comment. 2. Enter a response. 3. Select Post.	Reply: I found the file.	The reply appears under the thread and identifies or mentions the original commenter.		**Not Tested**
Delete the student's own comment.	The student has posted a test comment.	1. Open the comment menu. 2. Select Delete. 3. Confirm deletion.	Student-owned test comment.	The comment is removed from the student's view after confirmation.		**Not Tested**
Prevent deletion of another user's comment.	A teacher or classmate comment is visible.	1. Open the other user's comment menu. 2. Review available actions.	Comment owned by another class member.	No student option is available to delete or edit the other user's comment.		**Not Tested**
Honor disabled commenting.	Teacher disabled comments or muted the test student.	1. Open Stream. 2. Open a post with comments. 3. Check for comment controls.	Class with restricted student commenting.	Posting controls are absent or disabled and the existing Stream remains viewable.		**Not Tested**

PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	Stream - Materials
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_STR_003**
TEST SCENARIO:	Verify that students can find and open materials shared through the Stream.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
View a newly posted material.	Teacher published class material to the class.	1. Open Stream. 2. Locate the material post. 3. Review its title and description.	Material title, description, and posting date.	The material post displays the correct title, description, teacher, and date.		**Not Tested**
Open a Drive material.	A viewable Drive file is attached to the material.	1. Select the material post. 2. Open the Drive attachment. 3. Check access mode.	View-only Google Doc, Sheet, or Slide.	The correct file opens and the student's access matches the teacher's sharing setting.		**Not Tested**
Open an external material link.	The material contains a valid HTTPS link.	1. Open the material. 2. Select the link. 3. Verify the destination.	Teacher-approved website URL.	The expected website opens without changing or corrupting the Classroom post.		**Not Tested**
Handle an unavailable attachment.	The linked file was removed or access was revoked.	1. Open the material post. 2. Select the unavailable attachment.	Restricted or deleted test file.	A clear access or availability message appears; Classroom remains responsive.		**Not Tested**
Match Stream and Classwork material.	The same published material is listed in Classwork.	1. Note the Stream material. 2. Open Classwork. 3. Find the same material.	Published material assigned to one topic.	Title, description, attachments, and access are consistent in both locations.		**Not Tested**

PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	Classwork - Viewing
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_CWK_001**
TEST SCENARIO:	Verify that students can view assigned classwork and supporting details.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
View classwork grouped by topic.	Teacher published items under multiple topics.	1. Open Classwork. 2. Review topic sections. 3. Select one topic.	Two topics with assignments and materials.	Published items appear under the correct topics and topic filtering shows only matching items.		**Not Tested**
Open assignment instructions.	A published assignment is assigned to the student.	1. Select the assignment. 2. Select View instructions or View assignment. 3. Review details.	Assignment with title and instructions.	The correct title, instructions, teacher, and assigned status are displayed.		**Not Tested**
View due date and points.	The assignment has a due date and point value.	1. Open the assignment. 2. Locate due date and points. 3. Compare with teacher setup.	Known date, time, and point value.	The student sees the correct due date, due time, time zone behavior, and points.		**Not Tested**
View attachments and rubric.	The assignment includes resources and a rubric.	1. Open the assignment. 2. Open each resource. 3. Expand the rubric.	Drive file, link, and rubric criteria.	All authorized resources open and the complete rubric criteria and points are readable.		**Not Tested**
Hide unassigned or draft work.	Teacher has a draft or work assigned to other students only.	1. Open Classwork as the test student. 2. Search topics and the work list.	Draft or individually assigned test item.	The student cannot see classwork that was not published or assigned to that account.		**Not Tested**

PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	Classwork - Submitting
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_CWK_002**
TEST SCENARIO:	Verify assignment submission with files, links, and confirmation controls.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
Submit an uploaded file.	Assignment accepts work; test file is available locally.	1. Open the assignment. 2. Add or create a file. 3. Select Turn in and confirm.	PDF or DOCX under the allowed size.	The attachment is listed and the assignment status changes to Turned in once.		**Not Tested**
Submit a Drive file.	Student owns an accessible Drive file.	1. Open Your work. 2. Add the Drive file. 3. Turn in and confirm.	Student-owned Google Doc.	The selected file is attached and the teacher can receive the submitted version.		**Not Tested**
Mark work as done without a file.	Teacher created an assignment that requires no attachment.	1. Open the assignment. 2. Select Mark as done. 3. Confirm.	No-attachment assignment.	The status changes to Turned in and no unexpected attachment is created.		**Not Tested**
Cancel submission confirmation.	Work is attached but not yet submitted.	1. Select Turn in. 2. Cancel in the confirmation dialog. 3. Review the status.	One attached test file.	The assignment remains unsubmitted and the attachment stays available for review.		**Not Tested**
Handle a deadline submission.	Teacher provides a controlled assignment at or after its due time.	1. Open the assignment near the deadline. 2. Attempt to submit. 3. Review status or message.	Known due date and synchronized clock.	Classroom follows the configured deadline behavior and clearly shows Late or a submission restriction.		**Not Tested**

PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	Classwork - Resubmitting and Comments
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_CWK_003**
TEST SCENARIO:	Verify unsubmission, resubmission, and private assignment comments.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
Unsubmit work before the due date.	Assignment is Turned in and the due date has not passed.	1. Open the assignment. 2. Select Unsubmit. 3. Confirm.	Previously submitted assignment.	The assignment becomes editable and its status changes from Turned in to Assigned.		**Not Tested**
Replace work and resubmit.	The student successfully unsubmitted the assignment.	1. Remove the old attachment. 2. Add the revised file. 3. Turn in and confirm.	Original file and revised file.	Only the intended revised work is submitted and the status returns to Turned in.		**Not Tested**
Preserve resubmission status after refresh.	Revised work was turned in successfully.	1. Refresh the browser. 2. Reopen the assignment. 3. Check Your work.	Resubmitted assignment.	The Turned in state and revised attachment remain visible without duplicate files.		**Not Tested**
Post a private comment.	The student can open the assignment details.	1. Enter a private comment. 2. Select Post. 3. Refresh the assignment.	Comment: Please confirm that my revision opens.	The comment appears once in the private thread and is visible only to the student and teacher.		**Not Tested**
View a teacher reply to a private comment.	Teacher replied to the student's private comment.	1. Open the assignment. 2. Review the private comment thread. 3. Open any notification.	Teacher reply in the test thread.	The reply is readable, attributed to the teacher, and linked to the correct assignment.		**Not Tested**

PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	People - Viewing and Email
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_PPL_001**
TEST SCENARIO:	Verify the class roster and student email actions on the People page.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
View teachers and classmates.	Student is enrolled in a class with teachers and classmates.	1. Open the class. 2. Select People. 3. Review both roster sections.	Known teacher and student roster.	Teachers and Students sections show the expected authorized class members.		**Not Tested**
Protect roster information.	The People page is open with a student account.	1. Review visible profile details. 2. Compare with account permissions.	Class member names, photos, and permitted email links.	Only information allowed for the student's role and school settings is displayed.		**Not Tested**
Send an email to a teacher.	School Gmail and Directory services allow student email.	1. Select Email beside the teacher. 2. Enter subject and message. 3. Send the test email.	Subject: Classroom test; approved test message.	A compose window opens with the teacher addressed and the sent message appears in Sent mail.		**Not Tested**
Send an email to a classmate.	Student-to-student email is enabled for the school account.	1. Select Email beside a classmate. 2. Enter subject and message. 3. Send the test email.	Approved recipient and harmless test message.	The compose window addresses the selected classmate and the email sends once.		**Not Tested**
Handle email when disabled.	Administrator disabled Gmail or Directory access for students.	1. Open People. 2. Review teacher and classmate actions.	Student account with email disabled.	Email links are absent or unavailable; the roster remains visible according to policy.		**Not Tested**

PROJECT NAME:	Google Classroom Student Test Cases
MODULE NAME:	Additional Student Scenarios
ENVIRONMENT:	Web app - supported browser - school student account
CREATED BY:	Student Testing Team
DATE OF CREATION:	10 September 2026
DATE OF REVIEW:	To be completed

TEST CASE ID:	**TC_EXT_001**
TEST SCENARIO:	Verify navigation, isolation, refresh behavior, and keyboard access.

TEST CASE	PRE-CONDITION(S)	PROCEDURE(S)	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
Navigate between class tabs.	The student is viewing an enrolled class.	1. Open Stream. 2. Open Classwork. 3. Open People. 4. Return to Stream.	One active class.	Each tab loads the correct module without signing out or mixing content.		Not Tested
Keep classes isolated.	The student belongs to two classes with distinct test content.	1. Open Class A and note content. 2. Switch to Class B. 3. Compare items and roster.	Two classes with unique posts and members.	Only the selected class's posts, work, people, and private comments are shown.		Not Tested
Reject an unauthorized class URL.	Student is not enrolled in the target class.	1. Open the supplied direct class URL. 2. Observe the response.	URL for a class outside the student's access.	Classroom denies access or requests a valid invitation without exposing class data.		Not Tested
Recover after browser refresh.	Student is signed in and viewing an assignment.	1. Refresh the page. 2. Use browser Back and Forward. 3. Reopen the item.	Valid signed-in session.	The session remains valid and navigation returns to the correct authorized content.		Not Tested
Use keyboard navigation.	Supported browser and keyboard-only input are available.	1. Press Tab through controls. 2. Activate tabs and an item with Enter. 3. Return with keyboard.	Stream post, assignment, and People entry.	Focus is visible, controls have meaningful names, and core student tasks work without a mouse.		Not Tested
