WEBSITE FOUNDATION

Your foundation, *built by hand.*

This agreement sets out the one-time build of Xavier Troy's professional website: a hand-coded, mobile-fast portfolio site, built to last. Plain terms, a fixed price, and no recurring cost until year two.

01 THE PARTIES

Provider. Digital Friday Studios ("DFS"), operating under the registered trade name JAEGA Business Development Services. Davao studio: Curvada, Barangay Lizada, Toril District, Davao City, Philippines. digitalfridaystudios.com, jad@digitalfridaystudios.com. Represented below by its authorised signatory.

Artist. Xavier Troy ("the Artist"). The website created under this agreement is made for the Artist and belongs to the Artist's family.

Client. As the Artist is under 18, this agreement is entered into and signed by the Artist's parent or legal guardian, named below.

02 WHAT WE ARE BUILDING

A single one-time project with a clear finish line: a hand-coded, responsive portfolio website for the Artist, built without page builders, templates, or plugins. It includes:

— **The pages.** A complete portfolio site with a home page and sections for his music, his story, media and video, live performances, press, and answers to common questions, plus a contact page and the usual privacy and terms pages.

— **The single, featured.** His release "Take Me Back Home" presented well, with links out to the platforms where his music lives.

— **Two ways to view it.** A rich, animated version and a simpler, lighter version the visitor can switch between, so the site feels alive but stays fast for everyone.

— **Contact by phone and social links.** A clear way to reach the Artist by phone, alongside links to his official pages. No forms and no sign-ups are collected on the site.

— **Revisions.** Two rounds of revisions are held in reserve within the price, so your feedback is already paid for and never billed as an extra.

PRIMARY DOMAIN FOR THIS BUILD (IF CHOSEN)
To be discussed after website's progression as an option.

03 THE INVESTMENT

Studio rate ~~USD 750~~. For Xavier, USD 700, inclusive.

This covers the entire build in Section 02 and the Artist's first full year of hosting and upkeep. Nothing further is owed until year two.

Paid in two halves: **50% to begin (USD 350) and 50% on delivery (USD 350)** , by PayPal or bank transfer. Work begins once the first half and the Artist's assets are in hand.

PAYMENT METHOD / DETAILS

Year two onward. A flat **USD 99 per year** keeps the site live: domain, hosting, SSL, DNS, monitoring, and one batch of up to ten small content updates each year. It is the same for every client and it never increases.

Good to know. After the two included revision rounds, any further changes are USD 50 per batch, or USD 40 per hour, always quoted and agreed before any work starts. Written copy, if you would like us to write it, is USD 40 per page. At any time, the family may take the domain, hosting, and files fully independent for a one-time USD 150.

04 TIMELINE

DFS delivers the completed website in the region of **two months from signing** , once the Artist's assets (music, photos, biography, and any needed access) are in hand. The build clock pauses while we are waiting on content or approvals. A **third month is held as a grace period** for revisions and final refinements, so the site is finished properly and without pressure.

TARGET COMPLETION (≈ 2 MONTHS FROM SIGNING)
effective upon signing

REVISION GRACE PERIOD THROUGH
third month

ASSETS DUE FROM CLIENT BY
non-restrictive. At client's honest convenience.

05 HOW THIS RUNS

— We agree the scope in writing before any work starts.
— We show you the design, then build it. You send content, and the clock pauses while we wait on you.
— Changes come in rounds, each confirmed in writing. We always tell you before anything becomes billable.
— At launch we put the site live and hand you a short guide.

06 THE ARTIST IS A MINOR

Because the Artist is under 18, the parent or legal guardian signs this agreement and the following apply:

— **Consent.** The parent or guardian consents to DFS using the Artist's name, image, voice, and recordings solely to build the website described here.
— **Safety.** DFS will not publish the Artist's home address, school, precise location, or other sensitive personal details anywhere on the site.

07 OWNERSHIP, HOSTING & HANDOVER

The finished website and its content belong to the Artist's family. DFS manages the hosting and domain to keep the site live and secure under the annual renewal in Section 03, and the family may take these fully independent at any time on the terms above. At launch, DFS provides a short written handover guide. DFS may show the finished work in its own portfolio unless the Client asks otherwise in writing.

08 GENERAL

— Everything we build for you stays private. We show nothing to anyone without your clear yes.
— This document is the entire agreement for this build and replaces earlier discussions. Any change is agreed in writing, where email or message is enough.
— The parties resolve any disagreement first by good-faith discussion, then by mediation, before any other step.

Governing law: *[default: Republic of the Philippines, adjust if agreed]* . This may be signed electronically and in separate copies.

GOVERNING LAW (IF AMENDED)
United States of America

AGREEMENT DATE

09 SIGNATURES

By signing below, both parties agree to this Agreement.

☐ I confirm I am the parent or legal guardian of the Artist, and I give the consent described in Section 06.
